I. Finding Information About Members of Congress

If you are looking for specific information about Members of Congress, including the bills they have sponsored, you can access this information through the Members and Committees Search Form. The “Bill Sponsored” option searches for all bills introduced by a specific Congressperson, either as sponsor or co-sponsor.

**EXAMPLE:** To search for all bills sponsored by Senator Strom Thurmond, you could enter Senator Thurmond’s name in the search box and either search by “Any Congress” or each specific Congress in which he served.
